Incidence of Future Shoulder Procedures after SLAP Repair

Published On: July 09, 2025 | Pages: 012 - 016

Author(s): Arjun Vohra*, Stephen Yao, Clayton Hui, Joshua Hustedt, Evan Lederman and Anup Shah

Introduction: Previous literature has shown a high revision rate after a SLAP repair operation, which led to a decreased number of SLAP repairs being performed and an increased emphasis on patient selection. The transition to the ICD-10 coding system has allowed for more descriptive coding, enhancing the validity of the data mined from large databases. This study aims ...

Fibromyalgia (FM): Definition, Differential Diagnosis, Clinical Contexts and Therapeutic Approaches. The Recent State of the Medical Art and a Possible Key to Etiological Interpretation. A Narrative Review

Published On: July 05, 2025 | Pages: 001 - 011

Author(s): Giulio Perrotta*

Fibromyalgia (FM) is a syndrome currently considered idiopathic and multifactorial rheumatic syndrome that causes increased muscle tension, especially during the use of the same muscles. It is characterized by muscle and fibrous tissue (tendons and ligaments) pain of a chronic type associated with stiffness, asthenia (decline in strength with fatigability), cognitive ...
