Deciphering PPAR-inducing pathway clarifying the link between Alzheimer's Disease and diabetes

Published On: May 03, 2023 | Pages: 001 - 005

Author(s): Nesma S Shafie, Yasser M Morsy and Marwa Amer*

Diabetes is a widely prevalent metabolic disorder characterized by chronic hyperglycemia. This condition is caused by various factors that ultimately result in pancreatic cell failure. The American Diabetes Association (ADA) recognizes two main types of diabetes: Type 1 diabetes mellitus (T1DM) and Type 2 diabetes mellitus (T2DM) [1-4]. ...
