A Rare Case of Secondary Membranous Nephropathy

Published On: May 22, 2025 | Pages: 001 - 003

Author(s): Harish Prabhu*

Membranous Nephropathy (MN) is a leading cause of nephrotic syndrome in adults. It is broadly classified into primary (idiopathic) and secondary forms, based on underlying aetiology. Among the secondary causes, infections— particularly hepatitis B and hepatitis C viruses—play a significant role in disease pathogenesis. ...
