Repercussions of the use of probiotics in the treatment of chronic kidney disease

Published On: August 26, 2023 | Pages: 004 - 011

Author(s): Luana Azevedo Dourado, Bianca Braga Gomes, Cainã Araújo Saraiva, Sandriny Maria de Almeida Oliveira and Sávio Benvindo Ferreira*

The dysbiotic microbiota is one of the clinical findings in patients with Chronic Kidney Disease (CKD), and this intestinal imbalance is associated with inflammation and oxidative stress. With this, probiotic supplementation presents itself as a possible adjuvant therapy to improve this dysbiosis, due to the contribution to the integrity of the intestinal barrier. In ...

Laparoscopic resolution of Wünderlich syndrome as a primary treatment

Published On: July 04, 2023 | Pages: 001 - 003

Author(s): Gastón López Fontana*, Rodrigo López Fontana, Juan Manuel Guglielmi, Pedro Bellesty and José Daniel López Laur

Background: Spontaneous Retroperitoneal Hemorrhage, named Wünderlich Syndrome (WS) is usually managed by emergency surgeons with a conventional laparotomy. The aim is to report a patient with WS successfully treated by a laparoscopic approach avoiding open surgery. Methods: A 50-year-old female was diagnosed with WS hemodynamic instability and flank pain. After a no ...
