## Prosthodontic Aspects of Splinting the Mandibular Anterior Teeth by Fiber Reinforced Composites

Published On: April 25, 2025 | Pages: 004 - 008

Author(s): Miroslav Hrelja, Mirko Laškarin, Samir imi, Sonja Kraljevi, Nikša Duli and Tomislav Badel\*

This paper deals with the advantages and the procedures used in resolving prosthodontic problems in cases of partial edentulousness by using the remaining anterior mandibular teeth. The clinical report presents atraumatic splinting of mandibular teeth for prosthodontic and periodontal purposes with a review of changed occlusal conditions in a clinical case of prosthodontic ...

## Immediate Implant Placement in the Esthetic Zone Utilizing a Fully Digital Workflow for Crown Delivery

Published On: April 10, 2025 | Pages: 001 - 003

Author(s): Tiago Diomar Claudino\*, Matheus dos Santos Bonfim, Catherine Leticia Costa Rodrigues, Fabiana Rodrigues Monteiro Santos, Murilo Jacinto Santiago, Leandro Henrique da Silva, Marcus Vinicius Alves Fonseca, Marcelo Benedito Ruffini Penteadó and Rafael Alves de Camargo

The installation of immediate implants in fresh alveoli is a valuable technique for preserving surrounding structures. In this case, a male patient presented with trauma leading to a root fracture of tooth 21. Atraumatic extraction and immediate implant placement were performed, with biomaterial used to maintain periodontal tissues. A provisional restoration was placed ...
