Direct Conservative Esthetic Restoration - A Case Report

Published On: October 19, 2015 | Pages: 041 - 043

Author(s): Manu Rathee*, Mohaneesh Bhoria, Madhuri Dua

Rehabilitation of lost dental aesthetic is one of the most important concerns for contemporary dentistry. Conservative treatment modality along with aesthetic approaches, such as direct and indirect laminate veneer restorations were the treatment of choice. Laminate veneers are restorations to correct aesthetic deficiencies and discolorations. Direct laminate veneers ...
