## Herbo-dentistry- A review

Published On: May 05, 2022 | Pages: 006 - 011

Author(s): Nandita Gautam\*, Shivalingesh KK, Arjun Singh, Varnika Singh and Deepshikha Rajpoot

Phytotherapy is the study of the use of extracts from the natural origin as medicines or health-promoting agents. Plant products have long been used in dentistry as part of various dental materials right from impression materials to eugenol, which forms an integral part of the dental clinic. The use of herbs in dental practice is not limited to only material sciences.
