Patient education about subclinical hypothyroidism in preconception and early pregnancy

Published On: June 11, 2024 | Pages: 001 - 005

Author(s): Anastasia Navitski*, Rebecca Joseph, Alexandria Riedel, Kaitlyn Kennedy, Christian Reinhardt and Larisa Gavrilova-Jordan

Introduction: The diagnosis and treatment of Subclinical Hypothyroidism (SCH) in preconception and early pregnancy has been an area of debate. The challenge of managing SCH further lies in often suboptimal patient understanding of the condition given its asymptomatic state. This study aimed to assess whether patient education materials could improve patient knowledge ...
